## INFORMAL INVENTORY OF INDEPENDENCE AND SELF-ADVOCACY SKILLS FOR DEAF/HARD OF HEARING STUDENTS (©2005)

Developed by: George Clark, MS.Ed, CI, NAD-IV & Laura Scheele, MS Ed, NIC-Advanced (gmichael.clark@gmail.com) (lscheele18@gmail.com)

Inventory reformatted by: Karen Anderson, PhD, 2010. The authors grant permission for use in K-12 educational settings.

This inventory is intended to aid collaboration among students, parents, and educational team members in order to determine educational services and appropriate goals for the student's Individual Education Plan. It is very important to include the student's input and to recognize that even very young children should be building skills related to independence and self-advocacy. Discussion should include what would be considered appropriate for the child's age, cognitive abilities, and mode of communication when determining the items that may or may not be applicable.

Place an X to show (1) having lack of skill/dependence to (5) having mastery of skill/independence.
